

COMPANY INFO

Incepted in the year 2018, under the vision of Startup India & Make in India, company started its business operations in the month of July, 2019 under the mentorship by SH. S.N.GOEL & SH. PANKAJ GUPTA in the field of Oil & Natural gas sector in India.

VISION

We see the world not as it is, but as it can be. We democratize innovative technology and drive forward excellent ideas to their production maturity. The engineers at our facilities are consistently translating revolutionary concepts that are not only taking human mobility to a superior level, but also contributing to its overall evolution.

Our thorough understanding of the market along with strong focus on customer needs have helped us achieve a manifold rise in our turnover, which has already crossed the INR 5.0 Cr. (500 Billion USD) bench mark. Since our inception in 2019, our taskforce has grown by 5 times.

Today, across India we are one of the largest sole suppliers of products, equipments & services for the **FUEL/CNG GAS DISPENSING STATIONS** for vehicles that run on alternate gaseous fuels.

Many Indian OIL & GAS ENTITIES trust our PRODUCTS to be installed in the best of their PETROL PUMPS, CNG STATIONS, RE-GASIFICATION PLANTS & UNITS - not just for being innovative, but also for meeting international quality as well as safety standards. We are one of the few companies in the world that do sub-assemblies and pressure testing at 300 bar for mass production of CNG-HCNG-LCNG-PNG-OMC products & cater the customer needs globally.

Our innovative approach has helped shape the modernization of CNG STATIONS in India. We are the first company to introduce **VOSS VKLOK40 SS FITTINGS WITHOUT FERRULE FOR GAS DISPENSING (PATENTED TECHNOLOGY)** in India.
